

Summer 2009 Graduate Research Internship at Grockit

Grockit is excited to be able to offer a 10-week paid summer internship for a graduate student pursuing research in one or more of the following areas. See our [blog post announcing the program](#) for some more details.

- Computer supported collaborative learning
- Educational data mining
- Artificial Intelligence in education
- Intelligent tutoring systems
- Collaborative learning
- Game-based learning
- Item-response theory

About Grockit

Grockit is a [San Francisco-based web startup](#) building a platform for — and a community around — [live collaborative learning games](#). Grockit strives to provide its growing global network of learners with an experience informed by educational research, peer assistance, and data analysis.

Program Goals

Provide research opportunities to an individual enrolled in a doctoral program in the fields described above.

Program Duration

June 1, 2009 – August 14, 2009

Important Dates

- April 1, 2009 – Application deadline
- April 15, 2009 – Notifications sent

Award

- \$5,000 stipend*
- Housing is provided*, in one of our spacious live-work lofts
- Breakfast and lunch is provided*, on weekdays
- Air travel is covered*, up to \$500 for round-trip travel reimbursement from your university to San Francisco

Eligibility

- Current full-time enrollment in a doctoral program in the United States in any of the areas specified above.
- Completion of at least 2 years of coursework toward the PhD prior to the program start date.

Selection

The main criteria for selection will be scholarship and the match of applicant interests and experience with Grockit research interests.
